OF SPATIAL INTELLIGENCE.

25X1

1. The following abuses of authority have occurred:

25X1

(a) On 6 Aug 47 a trainload of Polish soldiers who had just returned [redacted]

25X1

[redacted] left Gdansk for Laskowice. At noon the train was stopped on
a siding where WSD and UEP units lay in wait. There the repatriates
were robbed of all valuables, including shoes.

25X1

(b) Abuses by the MO are increasing, and it is commonly known that they
usually pilfer food and other articles during routine baggage inspec-
tions on trains or in stations. Inspections at the Bieliec station
and in Krakow are notorious in this respect.(c) In Warsaw special PPR partisan battalions (bojowicci) have been organized
to attack and rob members of the PSL and the former AK. If the attacker's
are identified, the UEP protects them by threatening their victims.

2.

However, individual security against robbery, banditry, and similar crimes
is gradually improving. This slight improvement has occurred despite the
fact that MO or UEP preoccupation with political action in key areas has
generally led to increased banditry in that area.
